

# Videomail for Ninja Forms

---

It's a new name and moved to WordPress.org!

We have decided to offer this cool Videomail extension for Ninja Forms from [WordPress.org](https://WordPress.org) directly, for free for everyone. This is going to make things easier for everyone. The other Ninja Forms Add-Ons have a different price range, philosophy and take longer to update. Plus they can't be distributed for free.

For all the above reasons, here is the link where you can install and update anytime from now onwards:

<https://wordpress.org/plugins/videomail-for-ninja-forms>

If you already have purchased it before, you better grab the latest update now which comes with more stability and speed improvements. And be happy you don't have to pay anymore for the next years to come ;)

There is also a new landing page with more info on this Add-On itself:

<https://ninjaforms.com/videomail>

If you have any questions, bug reports, compliments, criticism, whatever, you can ping me anytime through these channels:

- Support, by email: [michael@videomail.io](mailto:michael@videomail.io)
- Bug reports, via GitHub: [https:// ...](https://github.com)
- Compliments or criticism, via Twitter: <https://twitter.com/binarykitchen>
